The Choice Meter · Teacher Page

Print **landscape, double-sided, flip on short edge, in color**: 2 sheets per student. Sheet 1 (pages 1–2) is the book, front and back. Sheet 2 is the cards, one-sided (one cutter pass: 3 cuts each way). **Print one copy first** and check that *should* is on the back of *don't have to*. If the back is upside down, switch to flip on long edge.

Put it together (about 5 minutes)

1. Fold the book sheet on the 3 dashed lines, zigzag (in, out, in). It stands up like a fence. No tape, no staples.
2. Front side (green): cover, can, may, don't have to. Back side (yellow/red): should, have to, must, must not. Turn it over and *should* is right behind *don't have to*.
3. Cut out the 16 cards. Write a name or initials on the back.

Games

1. **Sort it.** Stand the book up between two partners: one sees the green side, one sees the red side. Each partner sorts cards on their side, then turn it around and check. Put each card in front of a panel and say the sentence: *You must wear a seatbelt.* Pick a subject for each card: I, you, she...
2. **Argue it.** Partners compare. Different panel? Explain why. Some cards fit two panels (see the right column), and that's good talk.
3. **Blank cards.** Each student writes a rule from their own life: work, home, the clinic, their country. The partner sorts it.
4. **True or false?** Use the "Build an example" box on each panel. Write one true sentence and one false sentence about you. Your partner guesses: *I have to wear a uniform. False!*

Card answers

#	Card	Best panel	Also OK
1	wear a seatbelt in the car	**must**	have to
2	smoke in the hospital	**must not / can't**	
3	pay rent on the 1st of the month	**have to**	must
4	see a doctor if your cough doesn't stop	**should**	
5	eat a lot of sugar	**shouldn't**	
6	work on Sunday (Your job is Monday–Friday.)	**don't have to**	
7	bring lunch (Lunch is free at work today.)	**don't have to**	
8	ask the teacher: leave class early	**May I...?**	Can I...?
9	speak two languages	**can**	
10	wear a uniform at work	**have to**	must
11	have a dog (The lease says: No pets.)	**can't / must not**	
12	show your ID at the bank	**have to**	must
13	drink more water	**should**	
14	share your PIN with a stranger	**must not / shouldn't**	

Talk point: card 14 (share your PIN) is **must not** as a bank rule and **shouldn't** as advice. Both are fine. **don't have to** is wrong, and that is the big mix-up to watch for.
